About Me

I am a fun and dependable colleague who is happiest when busy and productive. With a strong background in Adobe Creative Suite, WordPress, and a variety of design, audio, video, and web applications, I am committed to keeping up with the ever-evolving technological landscape. My education in multimedia design has equipped me with the skills to excel in both creative and technical roles.

Co-founding a nonprofit organization in 2020 strengthened my belief in the power of education to drive social change. This experience deepened my respect for community leaders advocating for racial and social justice. My diverse interests in music, travel, history, and sports, as well as my love for animals (except spiders), reflect my curious and inquisitive personality. Proudly born in Ohio and raised in Los Altos, California, I grew up like the Fresh Prince of Bel Air and I currently reside in San Jose, California.
